The “Wieliczka” Salt Mine

EVENTS IN THE HEART OF NATURE

For English scan here

The "Wieliczka" Salt Mine is a monument with centuries of history and rich heritage, whose importance is underlined by its inclusion on the first UNESCO World Heritage List. The unique work of nature touched by a human hand creates a harmonious whole, which has been attracting visitors wishing to learn the secrets hidden underground for centuries.

The Mine is also an original location for banquets, business meetings, concerts, conferences and special family events like weddings, wedding receptions and anniversary celebrations. The underground halls offer event organisers a natural setting unlike anything else in the world. The salt walls, shimmering in the light of the crystal chandeliers with shades of grey and silver, make a stunning impression. You can organise an original event in the heart of nature here, as deep as 135 metres underground. We can assure you - your guests will be enchanted.

Our chambers are situated away from the hustle and bustle of the tourist area, which allows us to guarantee discretion and an intimate, comfortable setting for your meetings.

If you are hosting business meetings and family gatherings, we can also recommend the elegant and cosy Grand Sal**** Hotel. Situated near the Mine, amidst the picturesque greenery of the park, it is the perfect place where your attendees can relax.

Choosing the 'Wieliczka' Salt Mine or the Grand Sal**** Hotel to host your event guarantees the highest standard of service and attention to every detail. We ensure that working with the Mine is based on complete trust and professionalism.

Get in touch with our team to find out more about the offer and book a date. Let's create a unique event that your guests will remember for a long time to come together.

Every special occasion needs a unique setting.
Organise it here!

WARSZAWA CHAMBER 125 metres underground

This impressive space was created in the 19th century as a result of the extraction of 20 000 tonnes of salt. This impressive working adorned with a huge, modernist relief carved by miners-sculptors, captivates with the austere majesty of its salt walls. The wooden walkways and loggias, which once enabled visitors to admire the beauty of the mine, lend this place a deeply operatic and solemn atmosphere.

Warszawa Chamber

Today, the Warszawa Chamber is the largest and most spectacular event venue in the Mine, with a capacity of up to 700 guests. Thanks to its exceptional acoustics, professional stage and comprehensive facilities, it is an unrivalled venue for hosting gala events, anniversaries, balls, concerts and banquets. An additional advantage is the fully equipped underground kitchen, which guarantees the highest quality of the dishes served to your guests. An elegant foyer – the Wisła Chamber – leads to the venue.

The chamber can host:

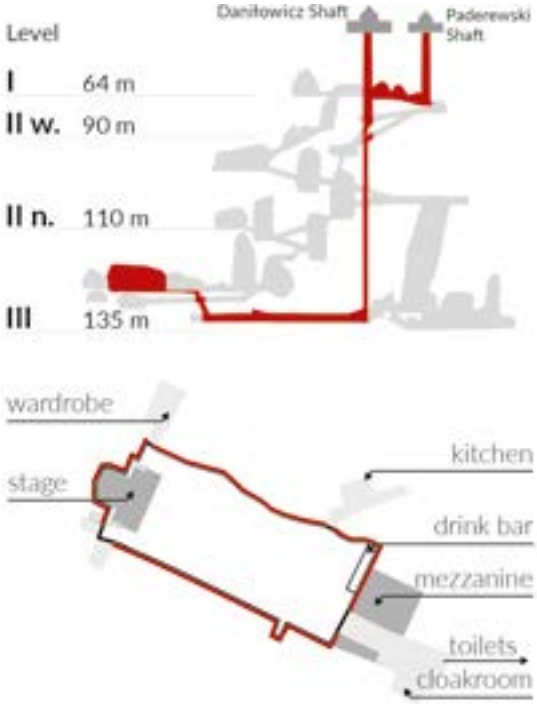

- Black tie business dinners
- Balls and banquets
- Large conferences and training sessions
- Award ceremonies
- Symphony concerts
- Sporting events
- Special events

Basic equipment:

- Stage (10 x 2 metres)
- Built-in RGB lighting
- LED poster (60 x 170 centimetres; 384 x 1080 px)
- Mobile network coverage
- Wireless internet access
- Rostrum
- Wardrobe
- Catering facilities
- Drink bar
- Cloakroom
- Toilets

Additional equipment:

- Stage (10 x 3-8 metres)
- Sound system and peripherals tailored to the needs of your event
- Structural lighting
- Stage lighting
- Effect lighting
- Projection screen and a projector
- Simultaneous interpretation booths

Dimensions:	40 x 17 m
Height:	6,5 m
Usable surface area:	680 m^2

Possible arrangements:

Seated banquet (including the mezzanine) for 400 attendees

Cocktail for 500 attendess

Theatre / conference layout for 700 attendees

UPPER LILL CHAMBER 125 metres underground

The chamber, which was excavated in the second half of the 19th century, is named after Józef Lill von Lilienbach – a distinguished director who founded the Representative Brass Band in 1830. The salt walls of the working still bear unique historical traces of the old spraying method, which stand as a fascinating relic of the mining craft of yesteryear

Upper Lill Chamber

Following a thorough overhaul carried out in 2014, this former working was transformed into a highly impressive event venue, capable of accommodating up to 300 guests. The superb sound and lighting systems make this historic chamber a perfect choice for hosting conferences, lavish banquets, business dinners and cultural events.

The chamber can host:

- Elegant business dinners
- Receptions and banquets
- Conferences and training sessions
- Concerts
- Corporate events

Basic equipment:

- Stage
- LED poster (60 x 170 centimetres; 384 x 1080 px)
- Wireless internet access
- Rostrum
- Wardrobe
- Catering facilities
- Cloakroom at the nearby Warszawa Chamber
- Toilets

Additional equipment:

- Sound system and peripherals tailored to the needs of your events
- Structural lighting
- Stage lighting
- Effect lighting
- Projection screen and a projector
- Simultaneous interpretation booths

Dimensions: 44 x 26 metres (irregular shape)
Height: from 6,5 to 11,8 metres (at the entrance)
Usable surface area: 800 m^2

Possible arrangements:

Seated banquet for 300 attendees

Seated banquet with a dance floor for 260 attendees

Cocktail for 300 attendees

Theatre / conference layout for 400 attendees

JAN HALUSZKA CHAMBER 135 metres underground

A working excavated in mid-19th century, named after the distinguished mine administrator, Johann Haluška. The chamber's impressive walls still bear clear traces of the mechanical work carried out by the old disc cutting machines, serving as a reminder of the mine's industrial heritage. The historic austerity of the interior is contrasted with four massive chandeliers, complete with thousands of gleaming salt crystals

Jan Haluszka Chamber

The cathedral-like interior, beneath its 13.5-metre-high ceiling, hosted the most distinguished guests – including heads of state, diplomats and NATO representatives. Designed to meet the needs of even the most demanding events, the venue can accommodate up to 150 attendees and features its own kitchen and modern technical facilities, making it a perfect choice for meetings.

The chamber can host:

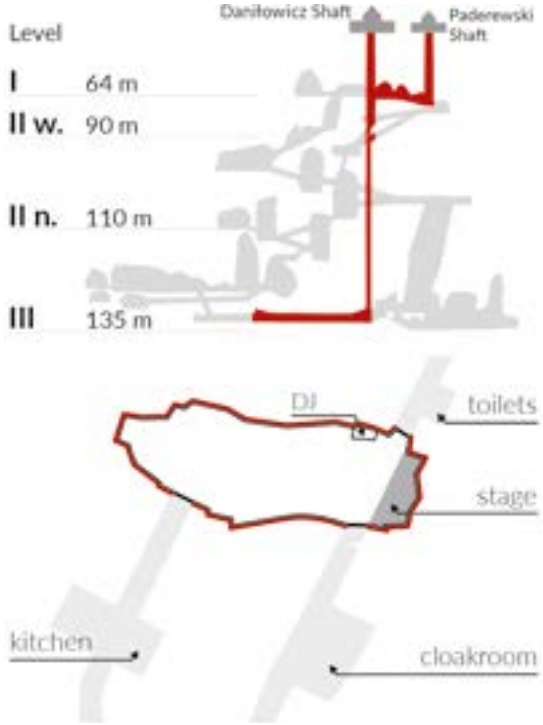

- Receptions and banquets
- Exquisite business dinners
- Civil and humanist wedding
- Wedding receptions
- Conferences and training sessions
- Charming concerts
- Company meetings

Basic equipment:

- Stage (7,7 x 3,2 m)
- Built-in RGB lighting
- LED poster (60 x 170 centimetres; 384 x 1080 px)
- Mobile network coverage
- Wireless internet access
- Rostrum
- Wardrobe
- Catering facilities
- Cloakroom
- Toilets

Additional equipment:

- Sound system and peripherals tailored to the needs of your events
- Structural lighting
- Effect lighting
- Stage lighting
- Projection screen and a projector
- LED poster screen (3 x 170 centimetres; 1920 x 1080 px)
- Simultaneous interpretation booths

Dimensions:	24 x 10 m
Height:	13,5 m
Usable surface area:	240 m^2

Possible arrangements:

Seated banquet
for 120 attendees

Seated banquet with a dance floor
for 100 attendees

Cocktail
for 150 attendees

Theatre / conference layout
for 150 attendees

PROF. WITODLD ŻABICKI MINING HERITAGE CHAMBER 135 metres underground

A mine working dating back to the mid-19th century, which was recently named after an eminent scientist from the AGH University of Science and Technology. The interior is adorned with a salt bust of the professor, sculpted by local artist Marek Stachura. The chamber, whose walls still bear traces of past mining activity and feature remarkable geological formations, exudes a sense of tranquillity and respect for academic and mining traditions

Prof. Witold Żabicki Mining Heritage Chamber

This atmospheric and secluded hall is now used to host intimate parties, board meetings and training sessions for up to 40 attendees. A full range of multimedia facilities, combined with a dedicated kitchen on site, ensure that every business meeting and special dinner will be characterised by the highest level of comfort and the best quality.

The chamber can host:

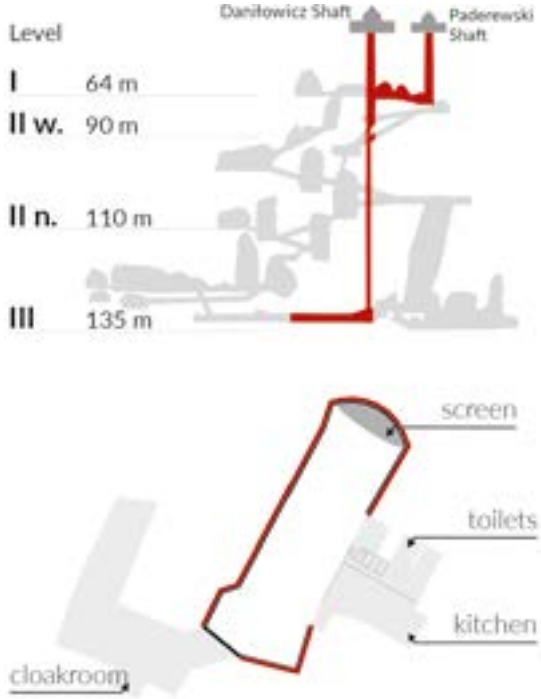

- Charming family gatherings
- Business meetings
- Training sessions for smaller groups

Basic equipment:

- Catering facilities
- Cloakroom
- Toilets

Additional equipment:

- Projection screen and a projector
- Music player and basic sound system

Dimensions:	14,5 x 4 m
Height:	2,4 m
Usable surface area:	58 m^2

Possible arrangements:

Seated banquet
for 30 attendees

Theatre / conference layout
for 40 attendees

GWARKÓW CHAMBER 135 metres underground

A chamber dating back to the early 20th century, where old mining techniques meet the tradition of feasts and celebrations. Modelled on a historic underground tavern, it serves as a reminder of the days when the miners of Wieliczka would gather to recharge their batteries and unwind after work. The charm of the place is enhanced by reconstructed features such as the bucket wheel and an impressive replica of the backfill dam.

Gwarków Chamber

The relaxed, informal atmosphere fostered by the wooden benches and tables makes this the perfect venue for organising unforgettable team-building events and traditional feasts for groups of up to 35 attendees. The golden lighting and austere salt surroundings create an atmosphere in which every guest will feel the true spirit of the Mine.

The chamber can host:

- Feasts
- Informal company get-togethers
- Team-building events
- Tastings events

Additional equipment:

- Bluetooth speaker
- Structural lighting

Dimensions:	14 x 10 m
Height:	3 m
Usable surface area:	113 m^2

Possible arrangements:

Seated banquet (benches) for 35 attendees

DROZDOWICE III CHAMBER 110 metres underground

The history of this place is a story of mining craftsmanship and heritage. The name of the chamber most likely refers to Ignacy Paweł Drozdowicz, a mine foreman from Wieliczka. At the dawn of the 21st century, the comprehensive restoration of the imposing wooden structure – which had been ongoing for almost a decade – was completed; today, it stands in the chamber as an architectural masterpiece.

Drozdowice III Chamber

The historic and monumental structure serves as the backdrop for the most prestigious events held in the chamber. The former mine working can accommodate up to 150 attendees, providing the perfect setting for elegant banquets, art openings and exhibitions. The chamber has its own catering facilities, which enable it to serve exquisite dishes prepared on the spot.

The chamber can host:

- Banquets combined with a lecture
- Receptions
- Civil and humanist wedding
- Art openings
- Exhibitions

Basic equipment:

- LED poster (60 x 170 centimetres; 384 x 1080 px)
- Mobile network coverage
- Wireless internet access
- Catering facilities
- Cloakroom
- Toilets

Additional equipment:

- Sound system and peripherals tailored to the needs of your events
- Structural lighting
- Stage lighting
- Effect lighting
- Projection screen and a projector
- Simultaneous interpretation booths
- Stage

Dimensions:	24 x 13 m
Height:	17 m
Usable surface area:	312 m^2

Possible arrangements:

Seated banquet
for 120 attendees

Cocktail
for 150 attendees

DROZDOWICE IV CHAMBER 110 metres underground

This mine working was already excavated in precious green salt deposits by the end of the 17th century. For decades it served as a makeshift warehouse, before years of painstaking conservation work. Following the refurbishment and adaptation carried out at the turn of the 20th and 21st centuries, it was given a new lease on life in a completely new role, becoming an integral part of the Mine's modern infrastructure

Drozdowice IV Chamber

Drozdowice IV is a perfect example of the synergy between history and modernity. The former working serves as a fully equipped conference room with excellent acoustics, accommodating up to 100 attendees. Its multimedia facilities, catering and simultaneous interpreting booths make it the perfect venue for international symposia, training courses and business meetings.

The chamber can host:

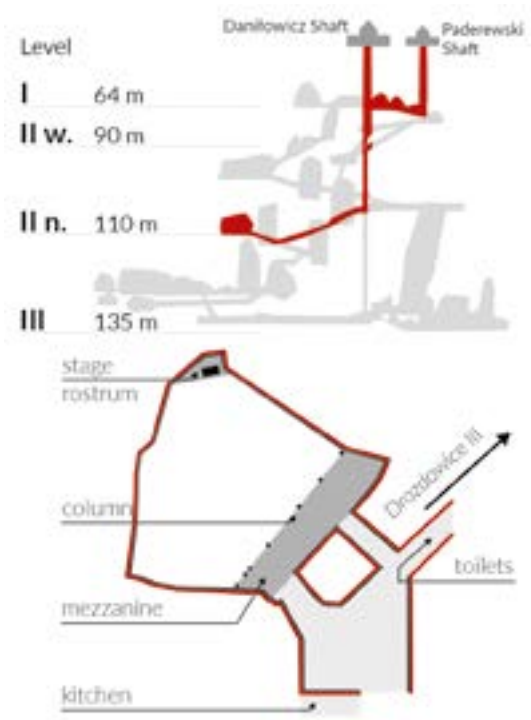

- Conferences
- Training sessions
- Presentations
- Business meetings

Basic equipment:

- Built-in projection screen and a projector
- LED poster (60 x 170 centimetres; 384 x 1080 px)
- Basic sound system
- Rostrum
- Mobile network coverage
- Wireless internet access
- Catering facilities
- Cloakroom
- Toilets

Additional equipment:

- Structural lighting
- Simultaneous interpretation booths

Dimensions:	15 x 15 m
Height:	8,5 m
Usable surface area:	225 m^2

Possible arrangements:

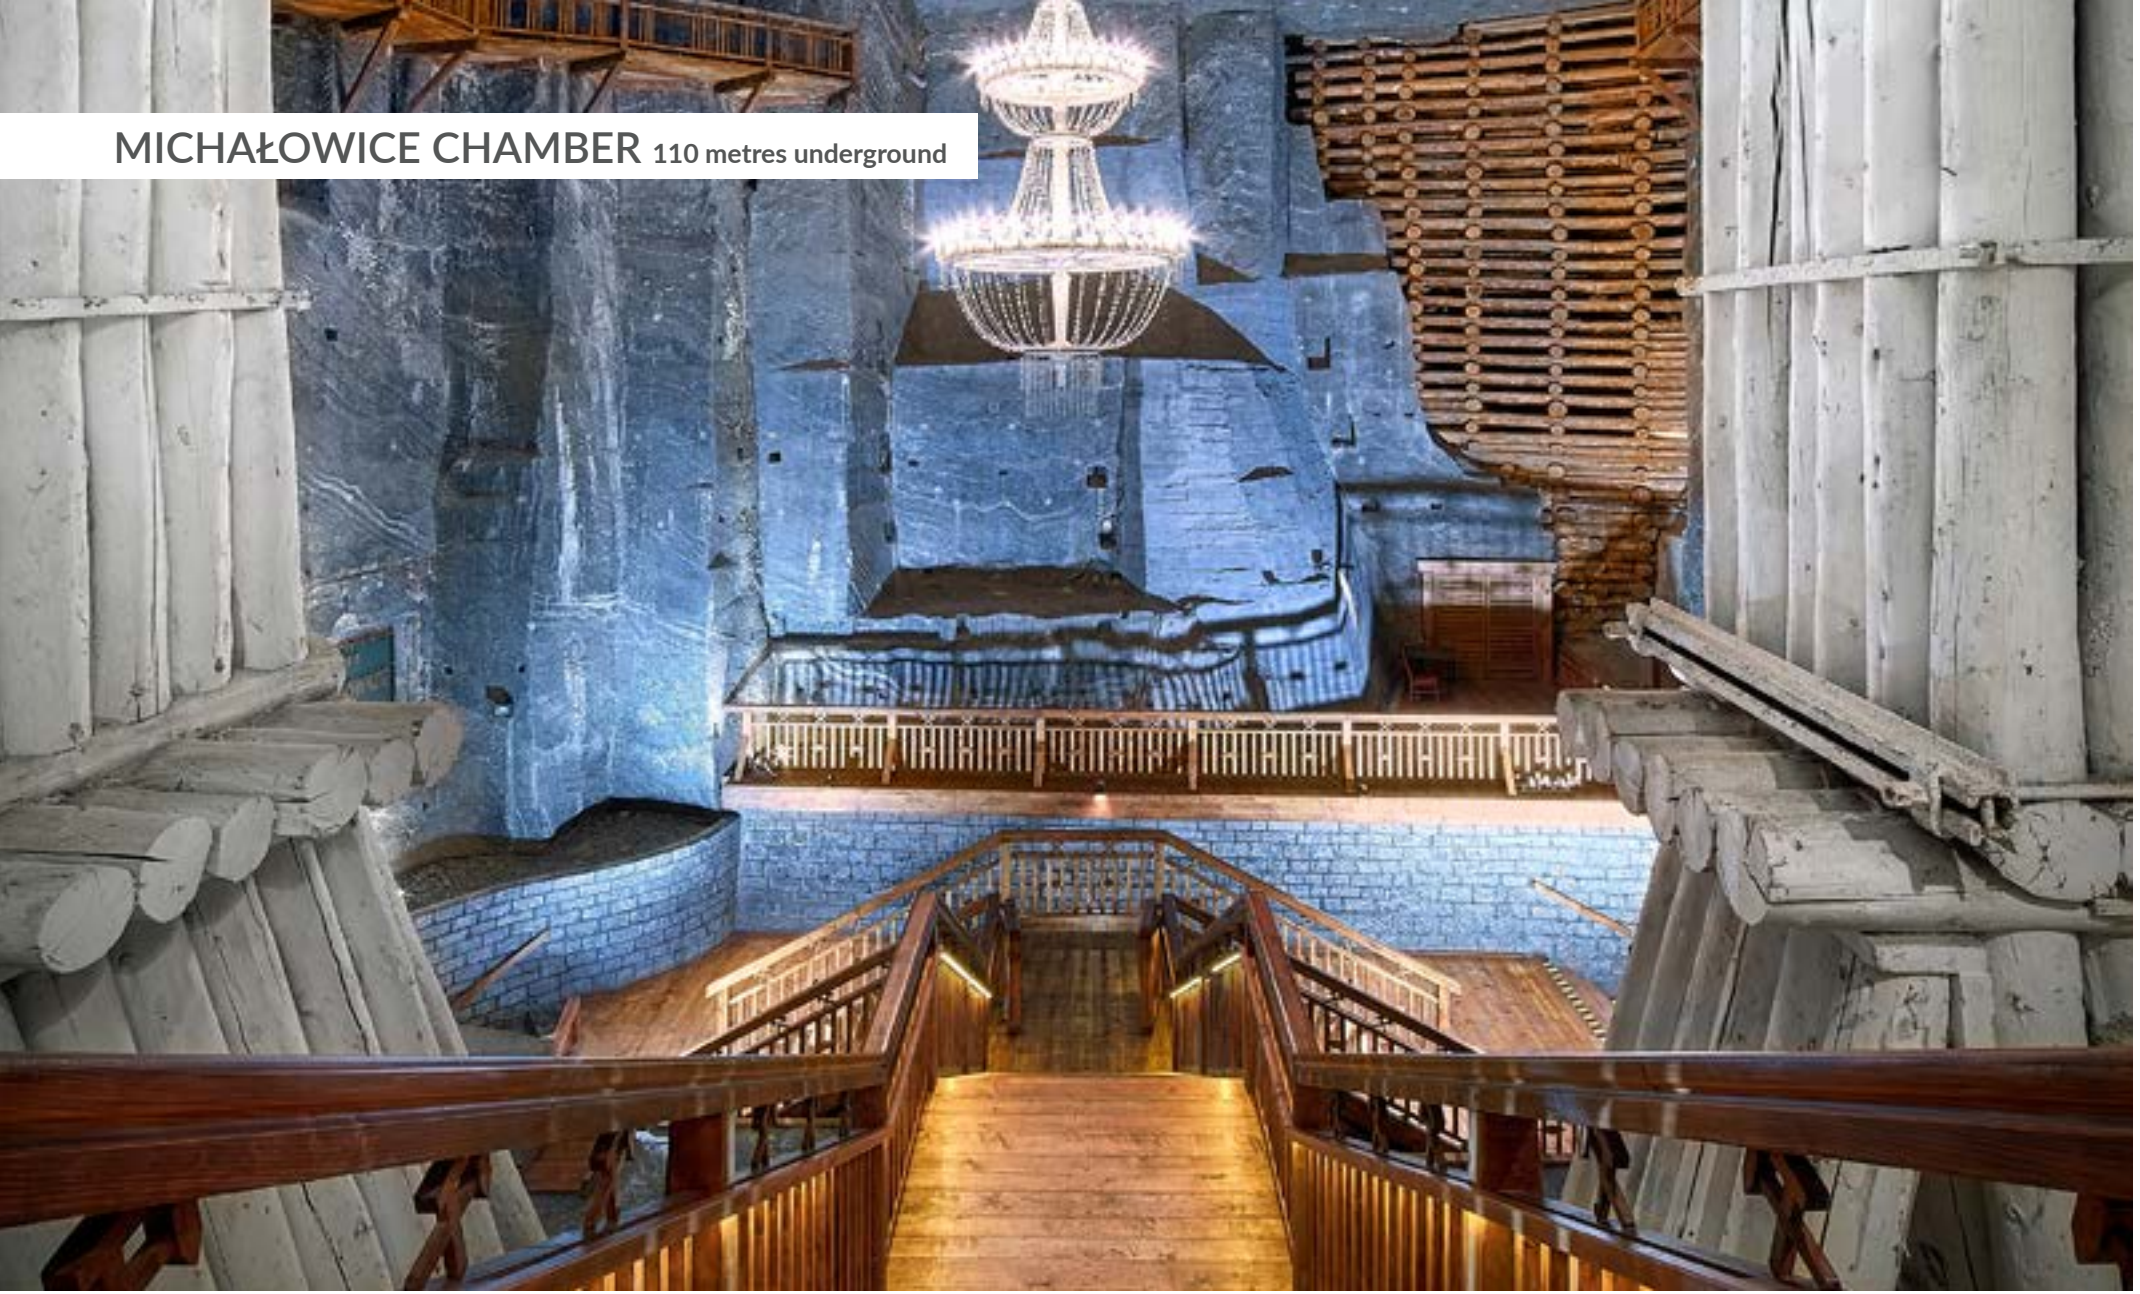

School-style seating (chairs with desks) for 100 attendees

Conference / theatre-style seating for 100 attendees

MICHAŁOWICE CHAMBER 110 metres underground

A monumental space that was brought back into use in 2009. This mine working is truly a sight to behold, with its cascading walkways and gigantic wooden structures, which date back to the days of the old 19th-century Austrian route. The austere and imposing interior still commands respect for the power of nature and the efforts of generations of miners from Wieliczka.

Michałowice Chamber

Today, these impressive wooden structures provide a spectacular backdrop for events. The venue is a perfect choice for hosting civil and humanist weddings, as well as exclusive cocktail receptions and tasting events for groups of up to 70 attendees. A private concert by the 'Wieliczka' Salt Mine Representative Brass Band could be a unique highlight of your event here.

The chamber can host:

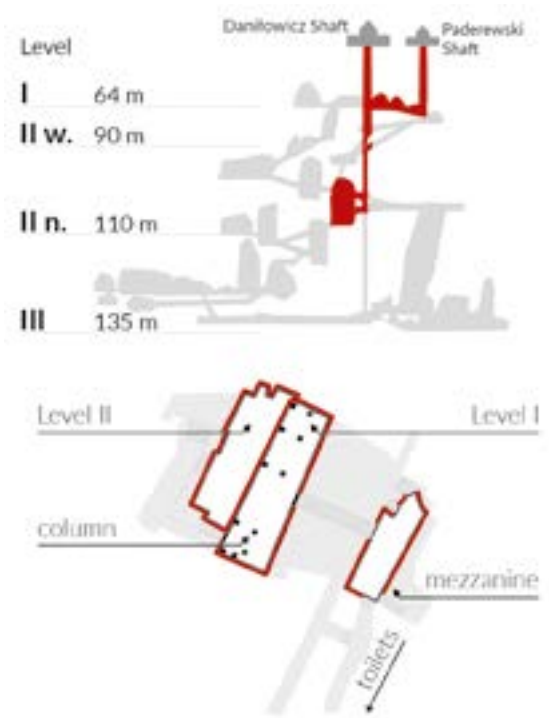

- Civil and humanist wedding
- Cocktail parties
- Tastings events
- Concerts
- Photo shoots

Basic equipment:

- Built-in RGB lighting
- Cloakroom
- Toilets

Additional equipment:

- Structural lighting
- Basic sound system

Height: 36 m

Possible arrangements:

Theatre - style layout
for 60 attendees

Cocktail
for 70 attendees

WINCENTY WITOS CHAMBER 125 metres underground

Dug out in the early 20th century, the former working harbours a fascinating history stretching back centuries. Today, the greatest natural feature of this place is the controlled trickle of brine, which creates extraordinary, fanciful crystal sculptures. It is a unique space, which combines the beauty of the underground world with a magnificent heritage, a perfect choice for unconventional meetings and gatherings.

Wincenty Witos Chamber

Opened for events in 2013, the chamber is a truly unique space, combining a fascinating mining heritage with the beauty of the underground natural world. It is ideal as a unique venue for meetings and an unconventional backdrop for informal gatherings. It also offers excellent catering facilities with a full range of amenities, capable of supporting the organisation of the largest events in the neighbouring workings.

The chamber can host:

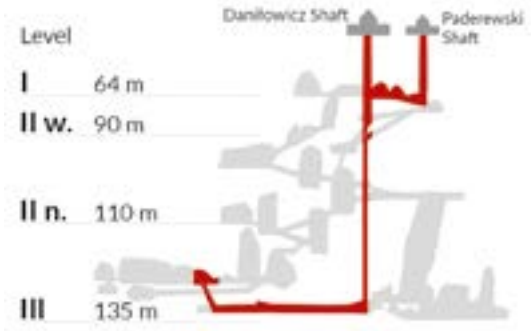

- Receptions and banquets
- Tastings events
- Business meetings

Basic equipment:

- LED poster (60 x 170 centimetres; 384 x 1080 px)
- Wireless internet access
- Catering facilities
- Toilets

Additional equipment:

- Sound system and peripherals tailored to the needs of your events
- Structural lighting
- Effect lighting
- Projection screen and a projector

Dimensions:	25 x 15 m
Height:	3 m
Usable surface area:	270 m^2

Possible arrangements:

Seated banquet
for 150 attendees

Cocktail
for 170 attendees

ST KING'S CHAPEL 101 metres underground

The most famous and magnificent underground temple in the world, situated 101 metres below ground. It took the miners decades to build it. Every detail – from the magnificent bas-reliefs to the majestic chandeliers intricately crafted from salt crystals – bears witness to the deep faith and artisanal genius of its creators. This is the heart of the "Wieliczka" Salt Mine, steeped in centuries of history

St Kinga's Chapel

This temple carved in salt, the only one of its kind in the world, is a truly magical venue for hosting ceremonies of the highest calibre. The chapel can accommodate up to 400 attendees, making it the perfect venue for fairytale weddings. Thanks to its superb acoustics, it is also an unrivalled venue for concerts of classical and sacred music, such as the renowned *Misteria Paschalia*.

The chamber can host:

- Weddings and baptisms
- Classical music concerts
- Holy Masses

Basic equipment:

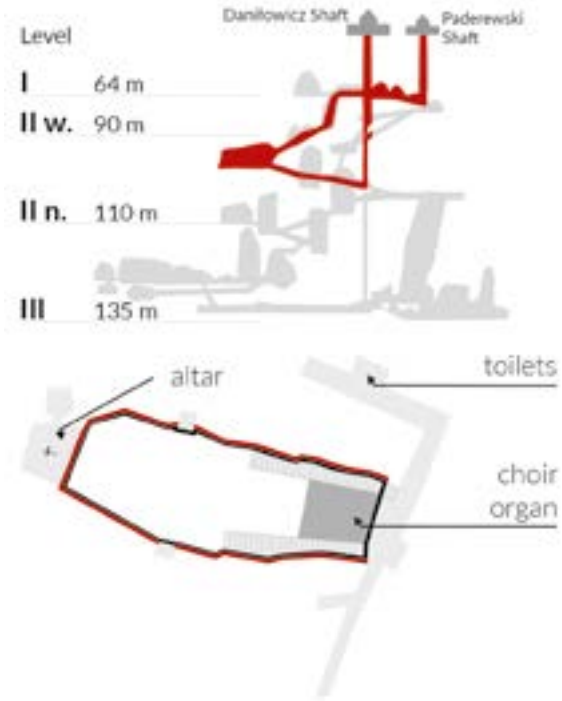

- Electric organ
- Basic sound system
- Wireless internet access
- Toilets

Additional equipment:

- Sound system and peripherals tailored to the needs of your events
- Structural lighting
- Stage lighting
- Stage platforms

(event restrictions)

The venue is available exclusively for classical music concerts, religious ceremonies and high-profile special events. The chamber is available when the mine is no longer open to tourist traffic.

Dimensions:	31 x 15 m
Height:	11 m
Usable surface area:	465 m^2

Possible arrangements:

Theatre - style layout
for 400 attendees including the choir

ST JOHN'S CHAPEL 135 metres underground

Situated at a depth of 135 metres, this intimate underground chapel remains an active place of worship. Its historic interior, adorned with stunning colourful polychromes, and the presence of an exceptionally valuable wooden crucifix, create an atmosphere that invites visitors to reflect, find peace and feel a sense of solemnity, drawing them away from the hustle and bustle of the outside world

St John's Chapel

The unique, intimate atmosphere of this venue makes it the perfect choice for hosting private events for groups of up to 40 attendees. St John's Chapel is the perfect venue for a charming wedding, a vow renewal ceremony or a baptism.

The chamber can host:

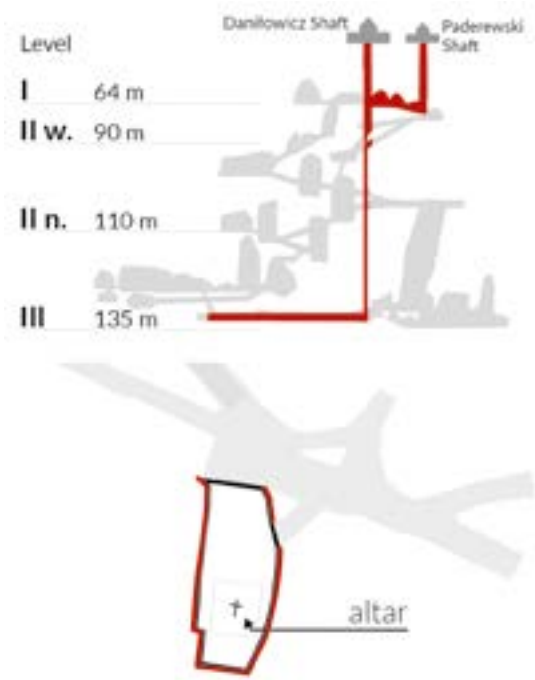

- Weddings
- Baptisms
- Holy Masses

Basic equipment:

- Basic sound system
- Mobile network coverage
- Toilets

(event restrictions)

The venue is available exclusively for classical music concerts, religious ceremonies and high-profile special events.

Dimensions:	17 x 9 m
Height:	6 m
Usable surface area:	153 m^2

Possible arrangements:

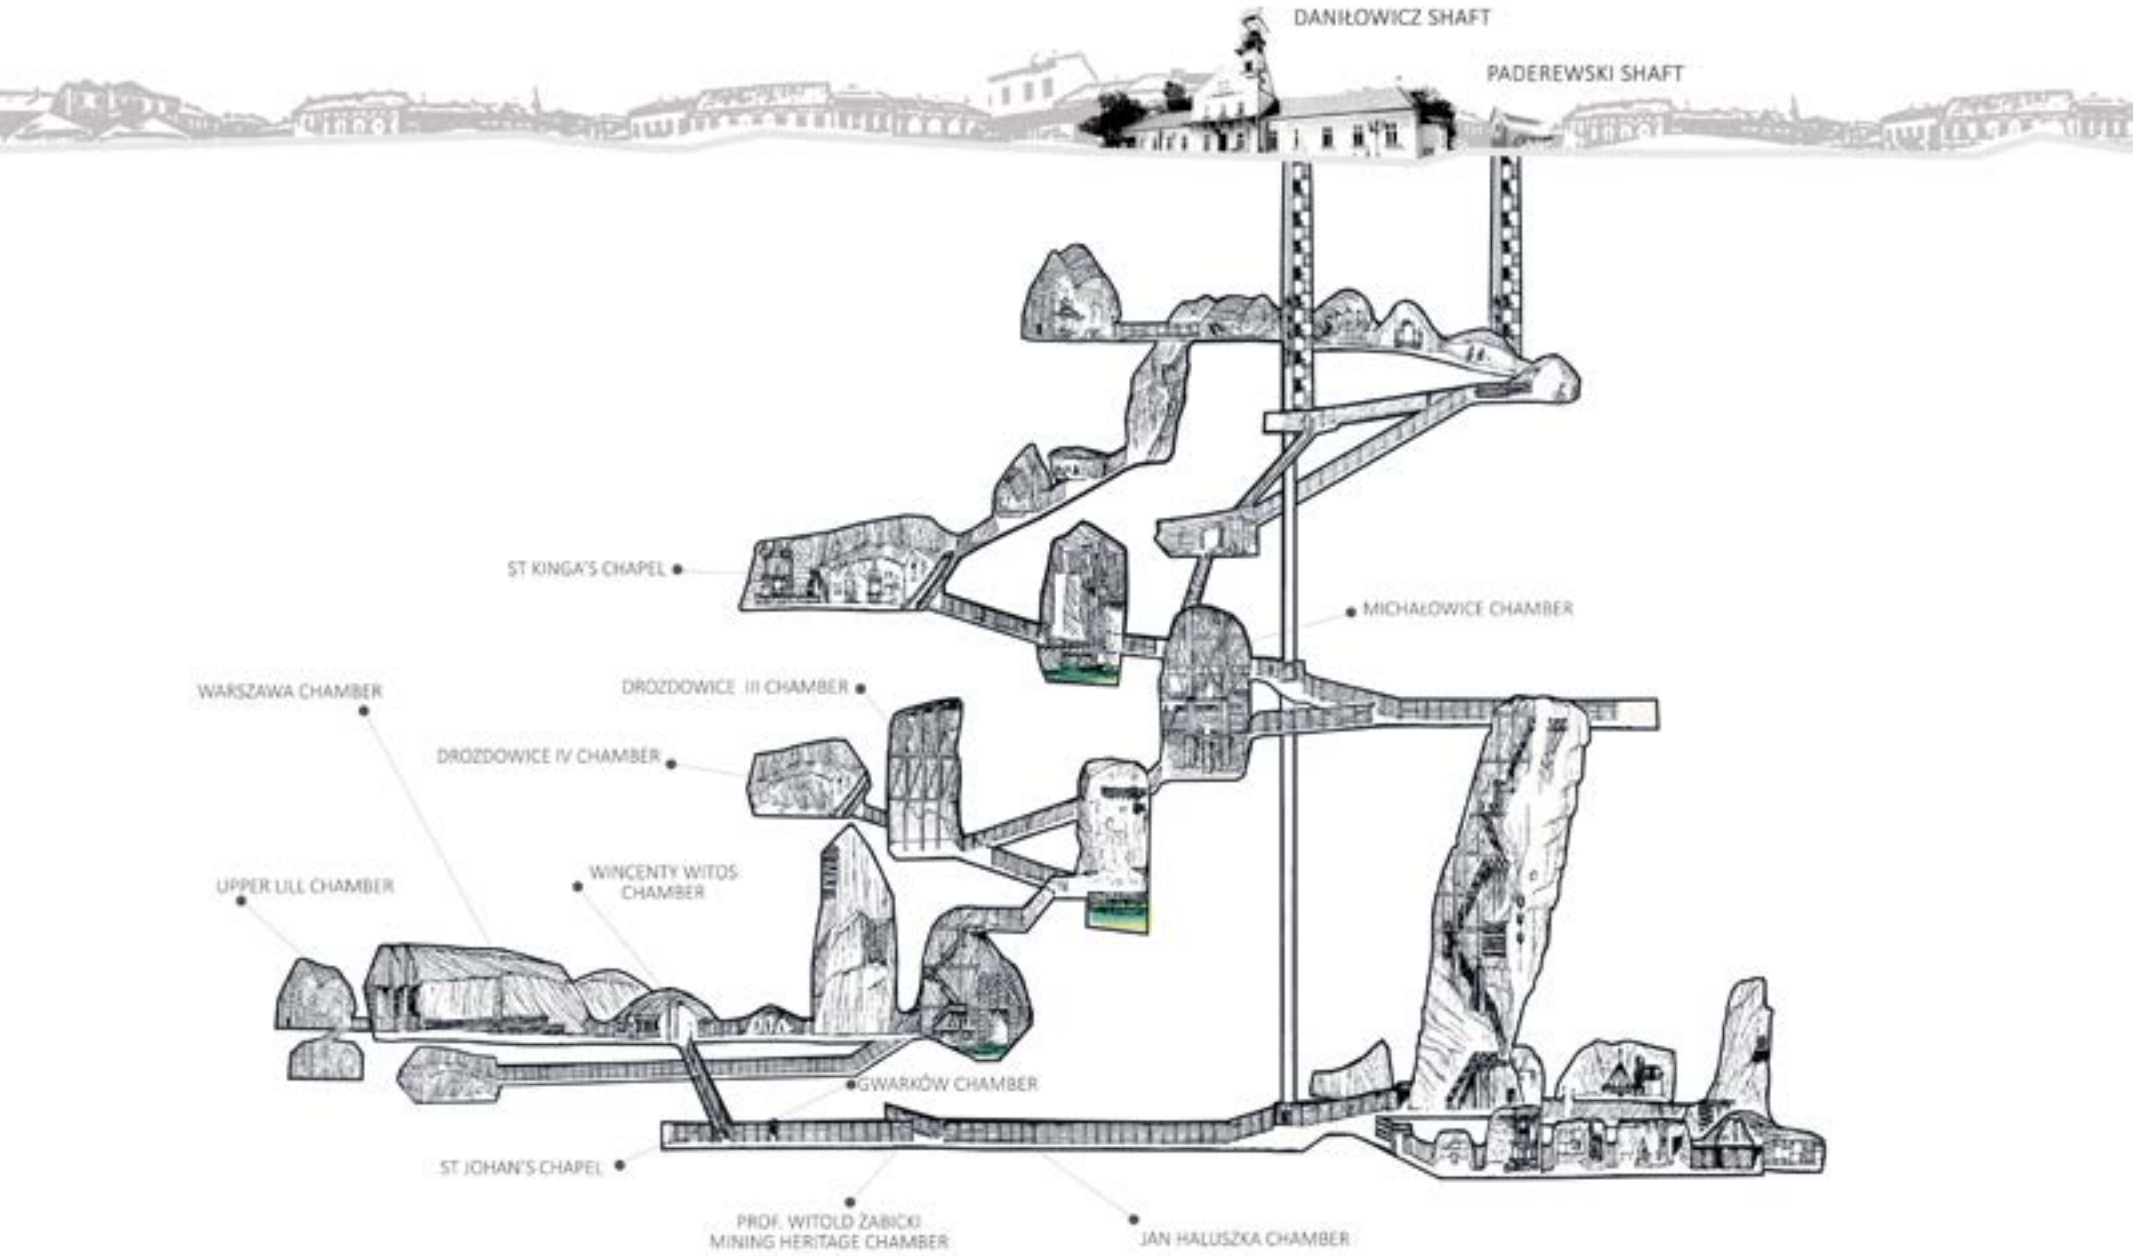

Theatre - style layout for 40 attendees

LOGISTICS AT THE HIGHEST LEVEL... 135 **metres underground**

Event Logistics and Security

With us, it's easier than you think

We are well aware that organising a banquet, a conference or a concert several dozen storeys underground sounds like an extreme logistical challenge. Transporting large-scale stage sets or sophisticated audio equipment down Mine shafts may raise some questions and concerns. We have some excellent news for you - we've been doing this for years, with top-notch precision, and our experienced team will guide you through the process step by step.

Underground Catering – Our Greatest Asset

Forget about the hassle of transporting food from the surface while it cools down! What sets us apart is the fact that all our dishes are prepared by our chefs on site, in the Mine's specially equipped underground kitchens. We serve only the freshest, highest-quality dishes, from exquisite starters to hot main courses, treating your guests to a sensory experience in the heart of the salt realm.

Safety is part of our tradition

Wieliczka is a place that defies traditional notions of a mine. It is a prestigious event venue where the unique, stable geological structure guarantees absolute safety and comfort. By organising an event 135 metres underground, you are choosing a venue with crystal-clear air and infrastructure certified to the most stringent standards of mining law. A team of experts is on hand at all times to ensure your peace of mind.

How does it work?

- **Shaft transport:** Participants and equipment are transported down via dedicated lifts (including the Daniłowicz Shaft). We provide precise dimensional specifications of the elevators, so that you can plan the dimensions of your set design with perfect accuracy.
- **Essential timetables:** The elevators go up and down during designated time slots. Life in the Mine has its particular rhythm - timeliness ensures that preparations run smoothly without interfering with tourist traffic.
- **Dedicated Event Coordinator:** You will be assigned a contact person from our Event Organisation Department. An expert who will review your production plans and ensure that every piece of equipment is safely transported from the shaft to the designated chamber.
- **Comfort and the Environment:** All the chambers are characterised by a constant, comfortable temperature of around 17–18°C. The whole area is perfectly lit and completely safe – your attendees do not need to wear helmets or protective overalls. It is simply worth bearing in mind that the use of open flames and smoking (including e-cigarettes) is prohibited. Certain exceptions to this rule are possible.

Focus on the artistic vision and the guests.
We will take care of the magic involved in moving this world deep underground.

FLAVOURS OF THE MINE

Flavours of the Mine

All the dishes served during events held at the “Wieliczka” Salt Mine are prepared by our chefs in underground kitchens.

We ensure the taste, aesthetics and the serving methods – we know that the details are very important and influence our guests’ experiences. We cook with fresh ingredients of the best quality, which are delivered underground on an ongoing basis. The menu proposals are set in detail during the preparation stage of the event. If you have your own menu ideas, tell us about them and our chefs will make sure the dishes look beautiful and are a real treat for the palate.

How to surprise guests with new flavours?

We can recommend the delicacies crafted in the salt underground! Thanks to the secret recipe, careful selection of ingredients, long ageing time and unique microclimate, the Mine crafts products with a unique taste and aroma. We serve them to individual order.

- **Aged beef sirloin**
  A product made on Level III of the “Wieliczka” Salt Mine using only fresh, top-quality beef sirloin. The sirloin is covered with original Wieliczka salt and matures for a few days. Then it undergoes a long drying process in the specific microclimate of the Wieliczka underground. It is carefully looked after and inspected to ensure the unique taste and extraordinary tenderness.

- **Wieliczka Miners’ Smoked Plum Liqueur**
  A tincture made of local smoked plums - a regional product of Lesser Poland with a protected geographical indication. Suska sechlońska is a special species of zwetschge plums, dried and smoked with smoke. Their rich aroma, combined with several months’ long ageing in the unique microclimate of the ‘Wieliczka’ Salt Mine gives the liqueur its distinctive flavour, aroma and beautiful amber colour.

  We also offer: Wieliczka Miners’ Raspberry Liqueur with a hint of lavender, Wieliczka Miners’ honey and spice Liqueur, Wieliczka Miners’ lime-flavoured liqueur with a hint of mint

GRAND SAL**** HOTEL

Kameralny Hotel Grand Sal**** należący do Kopalni Soli „Wieliczka” położony jest w zabytkowym parku, z dala od miejskiego zgiełku. Bezpośredni dostęp do atrakcji kopalni soli, bliskość natury i profesjonalna obsługa, sprawiają, że jest to przyjazne i komfortowe miejsce na spotkanie rodzinne, szkolenie czy konferencję.

The Grand Sal**** Hotel

Exquisite interiors with a historical look and feel provide a unique setting for important business events. The Grand Sal Hotel is a perfect venue for hosting meetings, training sessions and conferences.

One of the key advantages of the hotel is its location – right next to the historic 'Wieliczka' Salt Mine and surrounded by St Kinga's Park. You can combine your business event with a tour of the underground salt world. What is more, the surrounding greenery will make it easier to relax after a busy and productive day.

There are 39 comfortable single and double rooms and a luxurious suite waiting for our guests. Each interior has been designed to ensure comfort and a good night's sleep. We offer two modern, well-equipped conference rooms for training sessions and business meetings. Our conference rooms offer a wide selection of flexible layout options, starting with a horseshoe layout for 24 attendees, all the way to a theatre auditorium layout accommodating 70 people in the audience. At the Grand Sal Hotel, we take care of every detail – from setting up the venue to providing catering for your event. An interestingly laid out restaurant with a spacious terrace is the perfect place for private or corporate events.

The Grand Sal Hotel is situated in the very heart of Wieliczka, just 13 kilometres from Kraków. The region's transport network and a broad selection of tourist attractions are undeniable advantages when it comes to organising corporate events. Business guests appreciate the Hotel Grand Sal for its hospitality and an atmosphere that fosters productive collaboration.

DISCOVER THE MAGIC OF THE UNDERGROUND SALT WORLD - COMBINE YOUR EVENT WITH A TOUR

Add a tour of the Wieliczka underworld salt world to your event programme - your guests will remember it for a long time. The Tourist Route is the most popular way to explore the 'Wieliczka' Salt Mine. Along the way, the visitors see the breathtaking St Kinga's Chapel, brine lakes and sculptures carved in salt. The Miners' Route is an active excursion during which participants try their hand at the miner's trade.

The Tourist Route – a classic showcase of underground beauty

Impress your attendees with a walk through the mine's most beautiful and spectacular chambers. The Tourist Route is the perfect way to set the stage for any prestigious event, banquet or gala. As they stroll along the galleries carved in salt, visitors will discover majestic underground lakes, unique salt sculptures and the heart of the mine – the dazzling St. Kinga's Chapel. It is not just a sightseeing tour, but a fascinating journey through the centuries that will set the mood for a special evening for your attendees and provide them with plenty to talk about for hours to come.

An average group can complete the tour of the Tourist Route in two to three hours. The temperature underground remains constant at 17–18˚C. The route runs through mine workings extending to the depth of 135 metres below ground and spans a distance of approximately 3.5 kilometres. The Tourist Route has delighted millions of visitors from all over the world. Tours are always led by a guide, who will look after the group and ensure their comfort throughout the entire excursion. Your guests attending an event combined with a special tour will certainly cherish their memories of their time in Wieliczka for a long time.

The Miners' Route – an exciting adventure

Are you looking for an idea for an unforgettable team-building event or a special activity for conference attendees? The Miners' Route is a thrilling adventure that will bring any team closer together. Your attendees will be kitted out with professional overalls, helmets and mining lamps to set off into the austere and authentic mine workings under the guidance of an experienced foreman. Measuring methane levels together, sawing wood or transporting salt are challenges that guarantee a massive adrenaline rush, great fun and help build strong bonds that will last for years to come.

An average group can complete the tour of the Miners' Route in two to three hours. The temperature underground remains constant at 14–16˚C. The route runs through mine workings situated 101 metres below ground, spanning a distance of approximately 2 kilometres. A tour of the Miners' Route is an excellent opportunity to get to know your colleagues and test the team's ability to carry out tasks that require communication and cooperation. The tour takes the form of an active expedition – rather than listening to a story told by a guide, the group learns the mining trade supervised by a foreman. The participants receive a commemorative certificate confirming their newly-acquired skills. The workings of the Miners' Route are lit only by the participants' lamps, which makes it a truly extraordinary adventure.

ATTRACTIONS AND ARTISTIC PROGRAMME – AN EVENT EVERYONE WILL TALK ABOUT

The architecture of the salt chambers can be truly breathtaking, but it is music and culture that breathe real life into them. Thanks to the excellent acoustics of our venues, they serve as a perfect backdrop that will remain in the participants' memories for a very long time.

The pride of the Mine: The “Wieliczka” Salt Mine Representative Brass Band

Imagine a gala that opens with a magnificent brass band concert performed by musicians in their full dress uniforms. Our Representative Brass Band is one of the oldest ensembles of its kind in Europe, dating back all the way to 1830! It has won numerous international awards, including the Silver Medal of Merit to Culture “Gloria Artis”, the Gold Diploma at a festival in Hungary, first place at the prestigious International Miners’ Band Competition in Ferropolis (Germany), and three victories at the national Echo Trombity Festival. Their performance adds a touch of class and a historical accent to any event.

Film and classical music

For clients looking for a symphonic experience, we have put together a special offer. Symphony orchestras perform regularly in our underground venues. With the support of outstanding Polish singers, we offer thrilling concerts featuring film, operetta and popular music. Sounds from the *Titanic*, *Pirates of the Caribbean* and classical arias echoing off the salt-encrusted rock faces guarantee an unforgettable experience with a true cinematic depth.

The Colourful Folklore of Lesser Poland

If your guests are coming from abroad or from other parts of Poland, a performance by local folk ensembles can be the perfect addition to a banquet or a traditional feast. The lively krakowiak dance, colourful costumes and highlander tunes fit perfectly with the atmosphere of the underground taverns and salt chambers, encouraging everyone to mingle. We have established partnerships with the best ensembles in the region.

Stars on Your Stage

Our chambers (particularly the Warszawa Chamber and the Jan Haluszka Chamber) are equipped with excellent stages and professional dressing rooms for performers. We can assist with the logistics in connection with concerts by top artists. The Mine’s underground stages have already hosted many legends and celebrities, including **Maryla Rodowicz, zespół Lady Pank, Ola Szwed and Magdalena Steczkowska.**

Let’s make your artistic dream come true together!

RESPONSIBLE EVENTS, EXCEPTIONAL EXPERIENCES

Responsible events, exceptional experiences

The “Wieliczka” Salt Mine is implementing a range of initiatives aimed at protecting the environment, improving energy efficiency and supporting the local community, based on the ESG Strategy adopted in 2025, which sets the direction for these initiatives. These solutions directly benefit the participants of events held underground.

The facility uses electricity generated entirely from renewable sources. In addition, it has its own solar power plant with a capacity of nearly 1 MW, which generates electricity exclusively for the Mine’s own use.

For many years, the Mine has been systematically modernising its lighting system, replacing traditional light sources with LED fixtures. More than 90% of the lighting fixtures along the Tourist Route and the Miners’ Route are equipped with LED light sources (2026). Replacing the light sources in the underground galleries has reduced energy consumption by over 50%, and in the case of the chambers, the lighting overhaul reduced power use by as much as 66%.

Replacing electrical infrastructure, including wiring and power supply systems, helps reduce energy consumption, while enabling visual effects that enhance the atmosphere and unique character of the space.

You can take advantage of the technical infrastructure available on site, including sound and lighting systems. This solution reduces the need to transport equipment from the surface and cuts emissions associated with event logistics.

Organising events at the “Wieliczka” Salt Mine also helps to support the local economy. The facility’s operations help to maintain and create jobs and foster cooperation with regional partners, particularly in the catering and services sectors. The events organised at the Mine draw on local supply chains, which strengthens economic ties in the region.

These measures form part of a broader approach to social and enviromental management in this historycally significant venue.

More information about the Mine’s social responsibility is available at: kopalniawieliczka.eu

Salt souvenirs for guests

Hand-made stone salt carvings, souvenir bags of salt, or maybe a set of cosmetics with natural brine? We offer many options!

Tell us about your gift ideas
and we will prepare them for your guests.

Do you want to learn more about hosting an event in the authentic surroundings of the Salt Mine, 135 metres underground?

Get in touch with our team. We will be happy to talk about the details and prepare an offer for you.
